PROFESSIONAL SUMMARY

Results-driven final-year B.Tech Computer Science (Data Science) student with hands-on experience in Python, SQL, and machine learning. Demonstrated ability to analyze complex datasets, build data pipelines, and deliver actionable insights. Proven leadership as a founder, event head, and social media strategist. Seeking entry-level roles in data analytics, data science, business analysis, or product management where technical and strategic thinking can drive impact.

TECHNICAL SKILLS

Programming Languages: Python, SQL, C++

Data Analysis & Visualization: Pandas, NumPy, Power BI, Tableau, Advanced Excel

Machine Learning: Scikit-learn, Supervised Learning, Model Training & Evaluation, Feature Engineering

Databases: MySQL, DBMS, Relational Schema Design, SQL Queries (JOIN, GROUP BY, Aggregation)

Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Colab, MediaPipe, OpenCV

Soft Skills: Leadership, Cross-functional Collaboration, Data-Driven Decision Making, Communication

EDUCATION

Bachelor of Technology – Computer Science (Data Science) | Acropolis Institute of Technology and Research, Indore
Nov 2022 – June 2026

GPA: 7.2 | Relevant Coursework: Machine Learning, DBMS, Data Structures, Statistics, Data Visualization

PROJECTS

Hand Gesture Recognition System | Python, OpenCV, MediaPipe

- Built a real-time gesture recognition system using MediaPipe landmark detection
- Implemented a custom gesture classification pipeline achieving high accuracy across 10+ gesture classes
- Integrated dynamic output display for interactive human-computer interaction applications

Sales Data Analysis & Dashboard | Python, Pandas, Power BI

- Analyzed 10,000+ sales records using Pandas to uncover customer behavior trends and revenue patterns
- Performed end-to-end data cleaning and preprocessing, reducing data inconsistencies by ~30%
- Designed interactive Power BI dashboards to support data-driven decisions

E-Commerce Database System | SQL, MySQL

- Designed normalized relational database schema for an e-commerce platform with 5+ interconnected tables
- Wrote optimized SQL queries using JOIN, GROUP BY, subqueries, and aggregation functions

Library Management System | C++, OOP

- Developed a file-based management system using OOP principles (inheritance, encapsulation, polymorphism)
- Implemented full CRUD operations with persistent file storage for 500+ book and member records

EXPERIENCE & LEADERSHIP

Founder & Owner | Gudi Mudi (Art Business) Mar 2023 – Present

- Launched and scaled an art business managing end-to-end operations: production, pricing, and customer engagement
- Applied data-driven strategies to analyze sales trends and optimize pricing and maintained customer relations

Event Head | AITR ACM Student Chapter Oct 2024 – Oct 2025

- Planned and executed 5+ technical events and hackathons, coordinating 50+ participants per event

Social Media Head | Rotaract Club of Acropolis Professionals July 2025 – June 2026

- Tracked and analyzed engagement metrics to refine content strategy, improving audience reach by 25%

CERTIFICATIONS

- IBM - AI Product Manager Professional Certificate (2026)
- NVIDIA - Fundamentals of Deep Learning (2025)
